W.I.P Labs press kit

Dilli Improvisers Orchestra

India's first improvisers' orchestra. Synths, code, noise boxes, guitars and voices, composing together in real time.

Created and conceptualised by Baan G. Produced by W.I.P Labs.

Dilli Improvisers Orchestra, W.I.P alt.FEST, Bengaluru

About

The Dilli Improvisers Orchestra (DIO) is India's first improvisers' orchestra. Synths, code, noise boxes, guitars and voices compose together in real time, and the music is shaped by listening and conduction instead of a score.

DIO was created and conceptualised by Baan G under the mentorship of Raymond MacDonald of the Glasgow Improvisers Orchestra and the University of Edinburgh. Vaibhav Batra was one of its founding members and later became its co-founder.

DIO has played GIO Fest 2025 in Glasgow, Goethe-Institut / Max Mueller Bhavan in New Delhi, CEPT University in Ahmedabad, Bengaluru and Dharamshala, and is available as a resident ensemble for festivals and campuses.

At a glance

Form	**Large improvising ensemble, acoustic and electronic**
Method	**Listening, conduction and graphic scores**
