W.I.P Labs press kit

In the Moment

Seven composers, seven films drawn at random from a bowl, and live scores made on the spot. A spontaneous sonic combustion.

Created, conceptualised and produced by W.I.P Labs.

In the Moment

About

In the Moment is a live scoring performance. Seven composers from very different sound practices (music, sound art, sound coding, free improvisation, sampling, modular synthesis, field recording and electroacoustic composition) score films they have not been told about in advance.

A bowl of chits sits at the centre of the stage. Each chit names a film, a composer and, in the newer version, a projectionist. An audience member draws the first one, and the named composer walks to a sound station and scores the film as it rolls. Stations are set around the screen, so the audience watches the sound being made as well as the film. The night ends with all seven composers scoring one piece together.

In the Moment 7.1 played Little Stint II at Dhan Mill, New Delhi, on 31 March 2024. The next version moves into expanded cinema: films projected on 16 mm and manipulated live by projectionists, with composers and projectionists first

At a glance

Form	**Live scoring of film, improvised in real time**
On stage	**Seven composers, a film bowl, sound stations around the screen**
Audience	**18 and over**
In development	**A 16 mm expanded cinema version with live projectionists and a residency**

Technical needs

Projection screen or wall, projector and playback

spending a residency together to build a shared vocabulary before they perform.

Seven sound stations around the screen, each with power and a DI or line feed to front of house

For the 16 mm version: 16 mm projectors and a projection station

Full technical rider on request

Performed at

31 Mar 2024 In the Moment 7.1, Little Stint II, Dhan Mill (with OddBird Foundation), New Delhi

In development 16 mm expanded cinema version with residency
